

DESTINATION PAGODA

Friends of Destination Pagoda is a collection of *businesses, organisations and community groups* that supports the Destination Pagoda proposal to turn 39,000ha of state forests around Lithgow into the Gardens of Stone State Conservation Area. This state conservation area will be a win for Lithgow, the region and its environment.

The proposal outlines how the effective management of this landscape can turn Lithgow and the Gardens of Stone into a world-class tourist destination.

Independent economic analysis shows that after 10 years, the reservation will bring Lithgow an additional:

- *420,000 visitors a year*
- *\$40.3 million per annum*
- *258 full time local jobs*

I endorse this proposal. I would like to sign up as a Friend of Destination Pagoda. I agree to have my logo listed on www.destinationpagoda.com.au (please attach in email).
